

Fain

The solid stainless steel Runtal Fain is quintessential minimalism integrating square and round elements. It goes well with either classical or contemporary decors. Available electrically in either direct wire or plug-in, the Runtal Fain has a state-of-the-art five setting digital control (off / lo / med / hi / 3 hour timer).

Because it is stainless steel construction, the Fain is the one Runtal product that can operate on both a closed-loop and open (domestic) system.

Height*:	33.1"
Width:	19.7"
Depth:	3.5"

Models Wattage & Heat Output:

Electric FTRE3320 Direct Wire
300 watts
1024 BTUH

Hydronic FTR3320
984 BTUH @ 180° Water

Electric units are available with soft-touch five setting (off/lo/med/hi/timer on hi for 3 hours) digital controls. They are available in two configurations:

1. D: Direct wire
2. PG: Plug-in with 6' cord

Hydronic units
