

Made-to-order Baseboard Heating by Runtal: VLX Series

- Ideal where a low profile is desired
- Easy replacement for fin-tube or cast iron radiators
- Available from 20 inches to 29-1/2 feet in length

Runtal's baseboard (made to order) is available in 1 to 4 tube heights. It may be manufactured in lengths from 20 inches to 29-1/2 feet long in increments of 2 inches. Ten standard colors as well as an array of designer colors are available. Runtal's baseboard style is perfect for situations where sheet metal-covered fin-tube or cast iron is being replaced. In these cases, it is often easiest to use the existing piping and simply order the appropriate lengths.
